Subject: Regulation of 1,3-D
Date: Friday, January 13, 2023 7:12:12 AM

EXTERNAL:

I am writing to inform you of the urgent need 1,3-D be regulated to keep us from breathing more than 0.04 parts per billion in the air. We are in Watsonville and surrounded by agriculture and strawberry fields. We are being polluted by the air we breathe. It is toxic and a carcinogen. Please do the job you were created to do. Thank you, Ann Carr , 167 Halton Lane Watsonville, CA 96076
