Subject: Better regulation of 1,3-D
Date: Sunday, January 15, 2023 3:46:04 PM

EXTERNAL:

It's time to better regulate levels of 1,3-D in the air in consideration of farmworkers' health and the health of all others who may be exposed.

Please put people's rights to clean air above the needs and wants of the companies that make 1,3-D and businesses such as strawberry growers.

Sincerely,

Gerda Endemann, Ph.D.
