Subject: No more than .04 parts per billion in our air
Date: Friday, January 13, 2023 11:11:46 AM

EXTERNAL:

To: DPR Members

It is imperative that your organization keeps the 1,3-D regulated so that we do not breathe more than .04 parts per billion in the air.

It is outrageous to think that your organization may not do what is best for all of us. Please do the right thing so we can all enjoy good health. The health of all the people who live in California should be of utmost importance. Thank you.

Sincerely,
Susan Rivas
Teacher/Mother/Grandmother
