**Subject:** Public Comment on Proposed Regulation Levels for 1,3-D  
**Date:** Sunday, January 15, 2023 3:58:07 PM

---

EXTERNAL:

To the Department of Pesticide Regulation:

I demand that 1,3-D ( pesticide 1,3-dichloropropene ( brand name Telone) be regulated to no more than 0.04 parts per billion in the air.

As a former assistant principal of Ohlone Elementary School in Pajaro, California, I am opposed to raising the acceptable levels of 1,3-D to higher levels.

Those who live in farmworker communities do not need these chemicals in the air breathe.

Sincerely,  
Vivian Vargas
