Spanish:

Para mí como trabajadora de los campos de fresa, me preocupa los pesticidas que ponen donde estamos nosotros porque a lo largo del tiempo ocasiona cáncer. Es preocupante para nuestros hijos, familiares y a nuestro alrededor. Nosotros como trabajadores no estamos informados de que clase de pesticidas se aplica. Nunca nos dicen qué clase de pesticidas y que tiempo se puede trabajar.

English:

For me as an agricultural worker, pesticides worry me as they are applied where we are situated because it causes cancer in the long term. It is worrisome for our children, family and our overall environment/community. We as workers are not informed of the class of pesticides that are applied. We are never told what class of pesticides and what time it is safe to work.
