- Investigation limited due to non-cooperation of complainant(s). Describe specifics below.
- Follow-up conducted/scheduled. Describe specifics below..
- Mitigation measures to prevent future incidents have been adopted. Describe specifics below
- Other: Describe specifics below.

### Summary of Incident and Justification for not taking an Enforcement Action:

On May 19, 2017 our office responded to pesticide complaint regarding a possible exposure. During the course of the investigation it was determined that an application of Q4 Plus Turf Herbicide EPA #2217-886 was made for weed control to the infield and to the outer edge of the baseball field. It was determined that the employer failed to notify its employee of the application prior to use. Our office issued a warning letter informing the school of the violation and that future mitigation measures must include proper notification. In addition, the school had no past violation history.
